TASK 5 – ADVANCED DAX

Create measures using time intelligence functions:

Total sales measure created in Order_details

```
Total Sales = SUMX(order_details, order_details[quantity] * RELATED(pizzas[price]))
```

Average Order Value measure is created

```
Average Order Value = DIVIDE([Total Sales], [Total Orders])
```

Sales Year-to-Date

```
Sales This Year =
CALCULATE([Total Sales], DATESYTD('orders'[date]))
```

Sales Month-to-Date

```
Sales This Month = CALCULATE([Total Sales], DATESMTD('orders'[date]))
```

Sales Quarter-to-date

```
Sales QTD = TOTALQTD([Total Sales], 'orders'[date])
```

Orders QTD

```
Orders QTD = TOTALQTD([Total Orders], 'orders'[date])
```

Orders Year-to-Date

```
Orders YTD = TOTALYTD([Total Orders], 'orders'[date])
```

Create measures for comparisons across time periods:

In my chosen dataset only 2015 year data available. Previous year not available so time periods measure not possible.

Create measures to perform ranking and top N analysis:

Ranking Measure:

Rank pizza by total sales

```
Pizza Rank =
RANKX(
    ALL(pizzas[pizza_id]),
    CALCULATE([Total Sales]),
    ,
    DESC,
    DENSE
)
```

Rank Pizza Types by Total Sales

```
Pizza Type Rank = RANKX(
    ALL(pizza_types[name]),
    CALCULATE([Total Sales]),
    ,
    DESC,
    DENSE
)
```

Rank Categories by total sales

```
Category Rank =
RANKX(
    ALL(pizza_types[category]),
    CALCULATE([Total Sales]),
    ,
    DESC,
    DENSE
)
```

Top 5 Pizzas by Sales

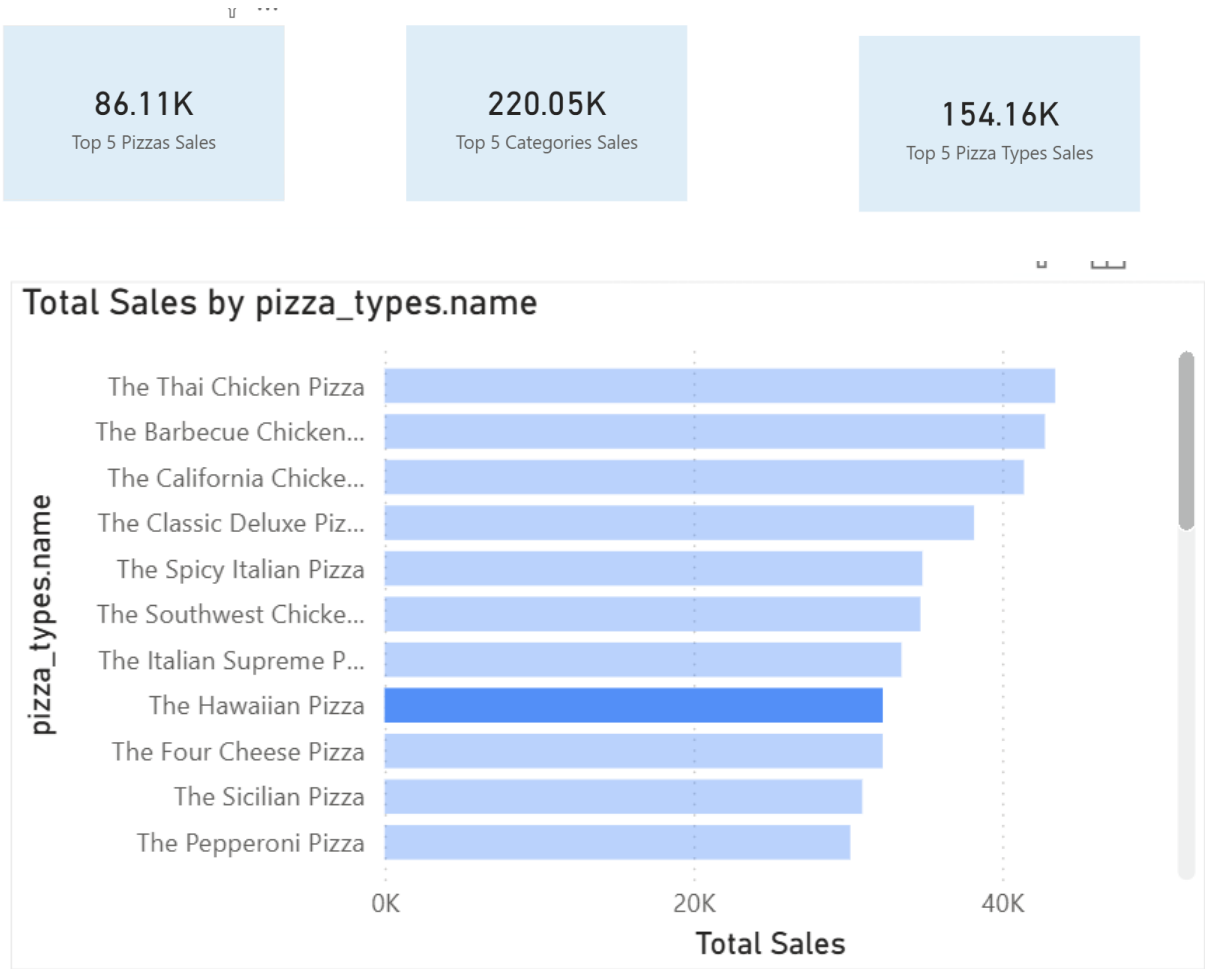
```
Top 5 Pizzas Sales =
CALCULATE(
    [Total Sales],
    TOPN(5, ALL(pizzas[pizza_id]), [Total Sales], DESC)
)
```

Top 5 Pizza Types by Sales

```
Top 5 Pizza Types Sales =
CALCULATE(
    [Total Sales],
    TOPN(5, ALL(pizza_types[name]), [Total Sales], DESC)
)
```

Top 5 Categories by Sales

```
Top 5 Categories Sales =
CALCULATE(
    [Total Sales],
    TOPN(5, ALL(pizza_types[category]), [Total Sales], DESC)
)
```



pizza_types.category	Total Sales	Category Rank	Top 5 Categories Sales
Chicken	195,919.50	1	195,919.50
Classic	220,053.10	1	220,053.10
Supreme	208,197.00	1	208,197.00
Veggie	193,690.45	1	193,690.45
Total	**817,860.05**	**1**	**817,860.05**
